

PRODUCT SHEET

SUPER DRY™ Small Package Desiccant DS 2g - 100g(8L)

Typical Properties

SUPER DRY™ small package desiccants DS 2g - 100g(8L) combine calcium chloride and natural organic gelator inside of a leak-proof pouch. These desiccants absorb moisture turning it into a gel, capturing and isolating the moisture away from cargo and merchandise and eliminating any possibility of leakage. At 95% RH and 35 °C over a period of 45 days, the moisture absorption rate of SUPER DRY desiccant is over 300% of the desiccant net weight.

Shelf Life

36 months from date of delivery if stored in a dry warehouse with normal humidity and if packaging remains un-opened. If packaging is opened, use the desiccants as soon as possible, and re-seal the packaging bag immediately after use.

Brand Name	SUPER DRY™
Product Type	Calcium Chloride Desiccant
Specification	2g, 5g, 10g, 25g, 50g, 100g
Main Ingredient	Calcium Chloride, Natural organic gelator
Package Material	Inner: Breathable & Waterproof material Outer: Composite permeable film
Absorption Capability	≥ 300% (35 °C , 95% RH)
Usage	Can be used in any package, such as polybag, box, carton, etc.
Utility	It can remove the moisture in the package to prevent mold, rust and other damage caused by moisture.
Compliance	REACH certified, RoHS, DMF Free

Usage

Once SUPER DRY™ desiccant is removed from its sealed aluminum-plated film bag, it will immediately begin absorbing moisture. To provide optimal protection for your product, please promptly place the desiccant into your product packaging and seal it. For detailed usage instructions and precautions, please consult our staff.

Disposal

After use, SUPER DRY™ desiccant turns into a gel-like substance. This material is non-toxic and environmentally harmless, so it can be disposed of as regular waste or handled in accordance with local laws and regulations.
